Delegate Brian Chisholm

Maryland General Assembly

Dear Delegate Chisholm

I am in support of your efforts to repeal SB 1 as it has eliminated competition in the electricity marketplace. Before this Bill Maryland consumers were able to shop for alternate suppliers of electricity, now no suppliers are selling in Maryland. My situation was I had a two year contract for .99cents/kwh with no early termination fee that was canceled because of this bill, so do not see how this helped anyone (maybe BGE). If we can get outside suppliers back to Maryland consumers at least have a chance to get better rates and you do not have to battle BGE for them. And it appears you have included consumer safeguards also.

Sincerely

Robert Murray
