House Bill HB 1210

We support passage of bill number HB 1210.

We believe ourselves and every Marylander deserves to be notified about any one attempting to use or take our land without proper notice is wrong. Currently the MPRP overhead powerlines are set to be placed 125' from our house. The possible health risks and depreciation of our property value will destroy all we have worked for over the last 40 years.

Our property was put into the Agriculture Land Preservation program. This was done so it would remain farm ground and provide a beautiful viewshed. Now a company that is not a public utility has been given the temporary right to enter our land is wrong.

We ask you to Support and Pass Senate Bill Number HB 1210.

Sincerely,

Kenneth and Fay Miller
