

Dave Liberatore

Opposition to HB 119

I oppose this Bill for a number of reasons:

- **It has not had an opportunity for public discussion in the affected Allegany County**
- **I'm a mechanical engineer with an understanding of power generation. A large power plant located in Luke MD on the N Branch of the Potomac can be problematic environmentally**
- **The Data Center that this legislation is intended to support brings a host of additional problems, with few if any long-term benefits for Allegany Co**
