To Whom It May Concern;

I am writing on behalf of HB1621 submitted by Delegate Grammer. I am in favor of this bill, for many reasons, but the most important reason would be a public database with current and up to date data available to the public and regular MDE monitoring of the effluent. Our community needs to be aware of current issues and/or treatment bypasses that could potentially affect water quality. With the lack of communication between the city and our community, this bill would allow the rebuilding of trust with the city, county and state.

Thank you for your time and consideration.

Sincerely,

Desiree Greaver
Marketing and Operations Director
