

**TESTIMONY OF REBECCA HAMILTON WILLIAMS
BEFORE THE Environment and Transportation Committee
IN FAVOR TO HOUSE BILL 0673
February 18, 2026**

Dear Chair and Members of the Committee,

I am writing to express my strong support for House Bill 0673 and to respectfully urge a favorable report.

At its core, this legislation addresses an important principle: limiting unnecessary government overreach that restricts fair market competition and consumer choice. Maryland residents benefit most when markets operate openly, transparently, and competitively—without excessive regulatory barriers that distort pricing, reduce innovation, or limit available options.

Overregulation can unintentionally create advantages for select interests while disadvantaging small businesses, entrepreneurs, and consumers. When government policies restrict entry into the marketplace or dictate outcomes beyond what is necessary to protect public health and safety, the result is often higher costs, fewer choices, and reduced economic opportunity.

House Bill 0673 represents a meaningful step toward restoring balance. By reinforcing free market principles and protecting consumer choice, this bill promotes competition, encourages innovation, and helps ensure that Maryland families and businesses are not burdened by unnecessary constraints. A fair and open marketplace ultimately drives better services, improved quality, and more affordable options for everyone.

Maryland has long valued both economic opportunity and responsible governance. Supporting HB0673 affirms a commitment to policies that respect individual choice, protect fair competition, and prevent unwarranted government intrusion into private enterprise.

Thank you for your time, consideration, and service to the people of Maryland. I respectfully ask for your support and a favorable report on House Bill 0673.

Respectfully submitted,
Rebecca Hamilton Williams
Elkton, MD (Cecil County)
