

Greetings representatives,
In considering this bill, I respectfully request that you consider others, who do not carry weapons and kill animals. I come from a family of hunters myself, however, I also ride my horse and take my golden retrievers on walks in Maryland parks, as do many, many others. We feel we deserve at least one day per week when we can enjoy the great outdoors and rejuvenate ourselves without fear of harm to ourselves or our pets. While bow hunters tend to be generally more respectful and considerate, those armed with firearms are less likely to be as close to prey, so as to identify it clearly, and firearms are much more lethal should a mistake be made. I implore you to consider God's day of peace and rest for everyone.

Thank you,

Carol McKissick, Bear, Murphy and PiperCub
