

Maryland Association of School Health Nurses

Committee: Senate Finance Committee

Bill Number: Senate Bill 808 – Health Insurance - Provider Panels - Requirements

Hearing Date: March 4, 2026

Position: Support

The Maryland Association of School Health Nurses (MASHN) supports *Senate Bill 808 – Health Insurance - Provider Panels - Requirements*. By modernizing Maryland’s credentialing statute, the bill will streamline the credentialing process and provide much-needed administrative relief to healthcare providers. Primary care providers and safety net providers, such as federally qualified health centers, are facing a growing population of uninsured patients. If providers can re-direct resources to patient care, we will help these providers maintain the health of Marylanders.

We ask for a favorable report. If we can provide any information, please contact Robyn Elliott at relliott@policypartners.net.
