

Committee: Senate Finance Committee

Bill: Senate Bill 808 – Health Insurance - Provider Panels - Requirements

Hearing Date: March 4, 2026

Position: Support

The American College of Nurse Midwives – Maryland Affiliate supports *Senate Bill 808 – Health Insurance - Provider Panels - Requirements*. The legislation updates and streamlines Maryland’s law on the credentialing process. ACNM supports this legislation because providers dedicate significant administrative resources to navigate the credentialing process. If the process were modernized, providers could shift more resources to patient care, improving our individual patient’s outcomes as well as population health metrics.

We ask for a favorable report on this legislation. If we can provide any further information, please contact Robyn Elliott at relliott@policypartners.net or (443) 926-3443.
