

**Testimony on Senate Bill SB505 – Favorable
SB505 Transportation - Aviation - Passenger Health and Safety (Aviation Health
and Safety Act)**

Finance Committee

February 18, 2026

Dear Honorable Chair Beidle, Vice Chair Hays, Members of the Committee:

Emily Miller offers favorable testimony in support of **SB505 Transportation - Aviation - Passenger Health and Safety (Aviation Health and Safety Act)**.

My name is Emily Miller, and I live in Baltimore City, 21218. I am very favorable to this proposed bill. I moved to Baltimore in 2024. Since my move, I have been impressed and proud by the kindness and investment of my neighbors in making our communities stronger and safer. It is important that as a state we strive to protect our neighbors in Maryland and for anyone who passes through our airports. In 2025 there was a huge increase in flights of detained persons, as well as alarming reports about the conditions on board. Flight attendants wrote open letters where planes were refueled while detainees were still on board, despite this being extremely dangerous. Numerous people reported it would have been impossible to evacuate a plane quickly during these flights, and there appears to be very little oversight in general.

This is why we need the Aviation Health and Safety Act – where everyone who is transported must have medical forms indicating allergies or medical conditions, as well as what medications each are taking. Minors must be documented, with information about their guardians if they are unaccompanied. These are basic requirements when overseeing the transportation for a large group of people, the fixed based operator or aviation service company are, in effect, responsible for the wellbeing of all detainees on board, and need to prove they take this responsibility seriously.

This is why I urge the Senate Judicial Proceedings Committee to issue **a favorable report on S B505**

- Emily Miller, 21218
