

Testimony Against SB0893

Honorable Senators

Please enter an unfavorable decision about SB0893.

I am opposed to

- Authorizing a merchant to round certain cash transactions in a certain manner or round the amount of change due to a customer in a certain manner;
- authorizing an employer to round a wage that the employer pays using cash in a certain manner; and
- providing that certain provisions of the Act shall preempt existing regulations, rules, and ordinances that conflict with certain provisions of the Act.

This so-called EMERGENCY bill is a "solution" in search of a problem and is not needed. Just because no new pennies are being made does not mean that there are not enough pennies available now. Pennies are still legal tender and can still be used in cash transactions.

I cannot see how this bill was approved as emergency legislation, when no crisis exists. I believe that business leaders do not need the State's "help" in setting prices and making change.

Please enter an unfavorable decision about SB0893.
