

To Whom it May Concern,

I am writing to insist that since BWI is a state-owned airport, we the people should have a say in ensuring that our airport is not used to disappear members of our community, separate families, and violate human rights. And as such, that BWI is state-owned, it should not facilitate ICE's abhorrent and lawless actions. Avelos's contract with BWI must be terminated.

Thank you,

Valerie Leonard
