Re: HB 2100 - Opposition

Dear Members of the Committee:

I respectfully oppose HB 2100.

Marylanders deserve a congressional redistricting process that is transparent and guided by clear constitutional principles. Public trust in our elections depends on consistent standards that provide accountability and confidence in the process.

HB 2100 would remove constitutional standards for congressional redistricting and instead leave those standards to future legislation. I believe these important safeguards should remain in the Maryland Constitution, where they provide stability, consistency, and meaningful judicial review.

For these reasons, I respectfully urge the General Assembly to reject HB 2100.

Thank you for your time and consideration.

Respectfully,

Stephanie Flasch
Harford County Resident
