

David Morsberger – lifetime resident of Anne Arundel County
Davidsonville Maryland

I am testifying in strong opposition to HB2100 and SB2100

Clarifying is explaining what exists and is NOT formally changing what exists to say what you need it to say.

49% of the Maryland voters are not Democrat and yet the Democrats demand 100% representation in DC. This effort is about absolute power at the expense of disenfranchising a substantial number of voters in Maryland

Stop lying about this being in response to Texas and other “red” states. You, the Maryland legislature, tried to pass a 8-0 democratic map in 2021, well before the Supreme Court ruling and Texas. I know you are hoping voters do not remember 2021.

This is nothing but a power grab. It truly demonstrates “the end justifies the means”.

It naturally follows, power corrupts and absolute power corrupts absolutely.

Finally, thank you for an election year issue that will energize those who oppose being disenfranchised.

My job along with many other activists is to make sure everyone who voted to disenfranchise Maryland voters is known to each and every voter.
