

Government, Labor, and Elections Committee
House Bill 67
Unfavorable

Honorable Chair, Vice Chair, and Members of the Government, Labor, and Elections Committee;

Please give House Bill 67 an unfavorable report.

This bill is stupid. But, if the first amendment is to be ignored and a 10 Commandments monument is placed on State House grounds, I suggest adding notes to each commandment about which United States presidents have violated them. Start with Trump.

With eyes rolled,
Debi Jasen
Pasadena, MD
