

Government, Labor, and Elections Committee
House Bill 751
Unfavorable

Honorable Chair, Vice Chair, and members of the Government, Labor, and Elections;

The Maryland “Freedom” Caucus is sponsoring this bill. It’s absurd to focus on communism while fascism is the actual threat in the United States. They want to take the spotlight off of their own fight for a white supremacist, anti-Queer, xenophobic, misogynistic country. Their undying support for the pedo, rapist, fascist in the White House cannot be ignored. Nor can the fact that the white supremacist administration has started a war for the sole purpose of bringing about Armageddon (as though any of them would ever be accepted into any sort of Heaven.)

You are under the direction to be civil towards your fellow legislators, however that doesn’t mean that you can’t take a “bathroom break” or play on your phone during the testimony for this bill. I mean, I’ve seen “Freedom” Caucus Republikkkans talking and laughing to each other during hearings, so they can’t legitimately get upset with you if you do the same. These people are a joke; they voted against the Ruby Bridges bill for crying out loud...

In any case, please give this stupid bill an unfavorable report. Thank you.

Sincerely,
Debi Jasen
