

OPPOSE SB2100 / HB2100

I strongly oppose disenfranchising the voters with this bill and the proposed amendment.

The abuse of power from the perpetual one-party rule is obvious. I live in a congressional district that requires a 3 hour drive to cover and four counties to cross. I live in the metro area and my interests are more aligned with people in DC. People in Cumberland may have completely different needs and issues from even people in nearby Hagerstown. Those are different still for people from the town of Oakland in western MD.

These areas might as well be different states! How could the same congressman possibly represent all of us fairly?

Sincerely,
Mark Meyerovich
District 15
