House Bill 580 - Montgomery County - Voting Methods MC 1-26 - FAV

Dear Government, Labor, and Elections Committee Members:

I, Natalie Groom, am urging your **support for HB 580**, *Montgomery County - Voting Methods MC 1-26*. The time is right to allow Montgomery County to move forward with using new voting methods. Give county residents and leaders the power to choose what works best for them.

HB 580 is an enabling bill. It allows the county to take the next steps at the local level to explore a voting method that addresses issues that have happened repeatedly in county elections over the last decade.

Why HB 580 Matters

- Since 2014, every Democratic Primary County Executive race has been won with less than a majority of the vote.
- In 2022, 4 out of 7 Primary winners in district races won with less than a majority.

We may see split votes and non-majority winners in the upcoming 2026 primaries because of competitive races for county council and county executive. Voters want to turn down the temperature on negative politics and empower voters to have a stronger voice to elect and hold leaders accountable.

Give Montgomery County the ability to choose the best solution for their community.

We Have Strong Support

- The Montgomery County House Delegation voted unanimously in favor of HB 580 / MC 1-26.
- The bill is supported widely by county leaders, city leaders, community organizations, and residents.

No Impact on Current Elections

- HB 580 is enabling legislation. It does not mandate the use of a new voting method.
- HB 580 would go into effect in January 2027.

The benefits of ranked choice voting are proven and clear at the local and state level. I support Rank Choice Voting because it's the fairest way to count votes and make sure people's votes don't get "thrown away" when they have to vote for a candidate they don't prefer but know has the best chance of winning. **I urge the Government, Labor, and Elections Committee to give HB 580 full consideration and a favorable report.**

Sincerely,

Natalie Groom
