**POSITION:** Support

---

The Honorable Melissa Wells, Chair  
House Government, Labor, and Elections Committee  
145 Lowe House Office Building  
Annapolis, Maryland 21401

Dear Chairwoman Wells,

I am writing in strong support of House Bill 266 - Department of Information Technology - Information Technology Investment Fund -Uses, the Department of Information Technology's departmental bill before the House Government, Labor, and Elections Committee.

HB 266 is a targeted, commonsense update to current law that reflects how the State's technology and communications infrastructure has evolved. While existing statutes appropriately supported legacy systems such as the State communications network and the Maryland FiRST radio system, today's environment requires greater flexibility to manage and reinvest in modern, statewide infrastructure that supports cloud connectivity, data centers, and shared enterprise services.

This legislation allows existing revenues generated through Resource Sharing Agreements to be reinvested more effectively into state-owned communication sites, facilities, and telecommunications equipment tied to information technology agreements. Importantly, HB 266 does not create new fees, impose new costs on agencies or local governments, or require additional appropriations. Instead, it enables the Department of Information Technology to make better use of revenues from existing resources to maintain assets, plan for lifecycle upgrades, and strengthen the reliability and resilience of Maryland's statewide IT and public safety communications infrastructure.

Wes Moore | Governor  
Aruna Miller | Lt. Governor  
Katie Savage | Secretary

By modernizing Section 3.5-309 of the State Finance and Procurement Article, HB 266 ensures that our statutory framework aligns with current operational realities and supports smarter, more strategic infrastructure investments across the State.

For these reasons, I respectfully request a favorable report on HB 266. Thank you for your leadership and continued partnership on technology and infrastructure issues impacting Maryland.

Best,

Katie Savage  
Secretary  
Department of Information Technology
