

HB2100 – Election Districts – General Assembly and Representatives in Congress

Chair and Members,

With all of the issues Maryland citizens are facing, to call a special session to change the MD Constitution because the MD Constitution won't allow you to gerrymander any further, is shameful.

To disenfranchise the citizens of the 1st Congressional District is a power grab solely for the purpose of propping up the Governor's national political aspirations.

End this clown show now, and get back to work solving the real problems, that you created, we Marylanders are facing.

Russ Johnson
