

Senator Hester Election Law - Election Misinformation, Election Disinformation, and Deepfakes - please don't support this, this is not what Maryland voters want.

WHAT WE DO want: same day voting (not election season), getting rid of the mail in ballot scheme, paper ballots, no more Chinese software with connected live Internet access and lastly only legal residents having a right to vote in our state.

This bill is beyond stupid. Who's actually going to enforce this? It is unenforceable and is a kiss the ring of Jared DeMarinis level dumb. If this isn't nonsensical grandstanding I don't know what is. And how much will this cost Maryland taxpayers? Who do you people represent? It is certainly not the residents of Maryland.
