

Position "UNFAVORABLE", "Written Only"

If enacted, [**House Bill 2100**](#) and [**Senate Bill 2100**](#) (cross-filed bills) would cause an amendment to legalize gerrymandering, to be placed on the ballot in the 2026 General Election. Such an amendment would put innocent human lives at great risk.

This legislative scheme is not just a corruption of the constitutional-amendment process; it is a direct assault against the fundamental freedoms of pro-life voters - including freedom of speech, freedom of religion, equal representation and equal protection.
