

Written Testimony of Kim Chambers
Submitted to the Government, Labor and Election Committees
On HB2100
And
The Educational, Energy and the Environmental Committees
On SB2100
Election Districts – General Assembly and Representatives in Congress Bill
July 31, 2026

Members of the Government, Labor and Election Committees and the Educational, Energy and the Environmental Committees,

Thank you for giving me the opportunity to submit my written testimony to these committees in opposition of HB2100 and SB2100, Election Districts – General Assembly and Representatives in Congress Bill.

I am not going to submit a long dissertation on why this bill should not pass. You who have created this bill know exactly what you are aiming for; a total disregard for bi-partisan and equal representation in the state of Maryland and further degradation of this beautiful state that I have called home for almost 68 years.

For this reason, and many more, which I hope you will hear from other constituents, I strongly encourage you to vote against this very obviously partisan bill.

Respectfully submitted,

Kim Chambers
