Government, Labor, Elections Committee

To Committee Members regarding HB 2100,

Maryland Our Maryland continues its spiral downward. Could its lack of political diversity be a factor?

Consider that during the past several years:

Maryland has lost its AAA bond rating

Maryland Board of Elections has violated federal Election laws

Maryland's Transportation Bonds have also been downgraded.

Reading scores have plummeted in our Education system

The attempts to continue one-sided lop-sided governance is a proven fail.

Maryland should rise from these ashes and prevent the further degradation of our state by opposing Redistricting and biased political gerrymandering grandstanding. Net zero has been the consequences.

Sincerely,

Sheila Jennifer

Columbia, MD
