## Showing Up for Racial Justice

Dear Members of the Government, Labor, and Elections Committee,

I am submitting this testimony as a member of Showing Up for Racial Justice (SURJ) Baltimore, a group of individuals working to mobilize white people in a multi-racial movement for equity and racial justice in Baltimore City, Baltimore County, and Howard County. I am a resident of Baltimore City and District 41. I am testifying **in support of HB1017** to add zoning requirements for private immigration detention facilities.

HB1017 would prevent the operation of any immigration detention facilities unless the applicable zoning regulations explicitly allow these facilities.

All human beings have fundamental rights and dignities that must be respected. Unfortunately, in detention facilities run by private companies, the requirement to respect the rights of the incarcerated is in direct conflict with the profit motives of those running these facilities. This is especially likely when private companies are allowed to convert warehouses or other buildings not intended to house human beings into detention centers.

In 2025, conditions in immigration detention facilities horrifically declined, with “worsening and substandard medical care, growing complaints of abusive conditions, and documented extensive violations of detention standards.”<sup>1</sup> These assaults on human dignity are expected to continue in 2026 as increasing demand for detention space continues to outstrip supply. Zoning regulations can help prevent these abuses from being perpetuated in Maryland.

Recent moves by ICE to purchase and convert warehouses into detention facilities raise concerns that an ICE “surge” similar to what has occurred in Minneapolis may be planned for Maryland.<sup>2</sup> Our state has a duty to safeguard our immigrant neighbors, and that must include making all possible efforts to prevent the establishment of new detention centers to fuel the ongoing terror campaign. Allowing the construction of such facilities in communities, alongside the schools, parks, and houses where people are trying to live their lives, furthers this fear and makes it even more constant.

**It is for these reasons that I am encouraging you to vote in support of HB1017.**

Thank you for your time, service, and consideration.

Sincerely,  
Dr. Katherine Blaha
