RE: OPPOSITION of House Bill 0679

Health Occupations - Cross-Sex Hormone Therapy for Minors

To the Chair Bagnall, Vice Chair Cullison, and esteemed members of the Health Committee, My name is Shir Wolf I am a resident of Baltimore City. I am writing to name my opposition to House Bill 0679 Health Occupations - Cross-Sex Hormone Therapy for Minors. Every major medical association considers age-appropriate transition-related care medically-necessary, including the American Academy of Pediatrics, the American Medical Association, the American Nurses Association, the American Psychiatric Association, the American Psychological Association, the Endocrine Society, the Federation of Pediatric Organizations, the Pediatric Endocrine Society, and more.

The American Medical Association states that trans and non-binary gender identities are normal variations of human identity and expression. HB0679 would deny gender-affirming care which can have tragic health consequences, both mental and physical, as well as ignoring every major medical association's insistence that this care is medically-necessary.

As a licensed social worker it is my ethical duty to support this evidence based, research backed and life saving medically necessary care.

For these reasons and many more, **I ask the Health Committee to give HB0679 an unfavorable report.**
