**HB 0637 - FAV**

Public Health - Recommendations for Immunizations, Screenings, and Preventive Services - Pharmacist Administration and Required Health Insurance Coverage

Dear Chair [Heather Bagnall](#), **Vice Chair** [Bonnie Cullison](#), and Members of the Health Committee,

Secular Maryland advocates for state laws and policies to follow the consensus recommendations of the experts as closely as possible. Unfortunately, some government and professional health institutions have become politicized and as a result they are not always as objective and reliable as they could be and should be. This bill sensibly attempts to address that problem by citing multiple government and professional institutions as guides for setting state health policies.

Respectfully,  
Mathew Goldstein
