

Testimony in Opposition to SB 0169

To the Honorable Members of the Health AND Finance Committee:

My name is Brigitta Mullican and I am writing to respectfully oppose SB 0169.

I believe this bill moves in the wrong direction for Maryland. We already have too many regulations and mandates that increase costs and create additional burdens on residents, businesses, and taxpayers. Instead of adding more government requirements, we should be focusing on policies that make Maryland more affordable and business-friendly so that people and businesses stop leaving our state.

Many Maryland residents are already struggling with rising property taxes, fees, and the overall cost of living. Legislation like this often creates unintended consequences, including higher costs that are ultimately passed on to residents.

We need policies that support economic growth, protect taxpayers, and encourage people and businesses to stay in Maryland. For these reasons, I respectfully request an unfavorable report on SB 0169.

Thank you for your time and consideration.
