

AARP Maryland Caregiving Pilot

Caregiving in My Community:
Maryland is one of four states (MD, NV, TX, WY) selected for a national pilot program

Phase 1: Community Needs Assessment (Jul-Sep 2025)	OBJECTIVE: Understand caregiver support gaps
	<ul style="list-style-type: none"> • Listening sessions with caregivers & partners • Review of Maryland-specific data

Phase 2: Mapping Process (2026)	OBJECTIVE: Create a menu of programs, tools and resources	Needs Assessment Findings (Nov 2025)
	Enhance and expand local and state partnerships	
Phase 3: Pilot Programs Partnerships (2026-2027)	OBJECTIVE: Address the most critical community needs <ul style="list-style-type: none"> • Test and refine innovative programs that address the most critical caregiving needs in our communities 	

Strengthen caregiving support for AARP members and their families in communities nationwide

Note: The AARP report, *Caregiving in the US 2025*, found that 24% of Maryland adults (1,164,000 residents) identify as family caregivers. Survey results are derived from this population.
