

Dear Members of the Members of the House Rules and Executive Nominations Committee,

I vehemently oppose HB 0488, a bill that would gerrymander and create unfair representation in the Maryland General Assembly and U.S. Congress for citizens of Maryland on the Eastern Shore. I have lived on the Eastern Shore since 1979 and up until this bill was filed, I never felt like was disenfranchised from voting for representatives that truly stand up for me and other residents of our Eastern Shore.

Now Maryland Democrats are doing just that. Why? Because they want complete and total power over the state, even though they currently have a super majority.

It is a shameful power grab by Democrats, especially Governor Wes Moore.
