Committee: Rules and Executive Nominations

Bill: HB488

Position: Unfavorable

Testimony:

-Extremely Un-American and beneath the people of Maryland. Why take away the votes of half the people of your state? This only leads to one party rule and zero checks and balances.

-Is Governor Moore and his agenda more important than what has been fine in Maryland for years.

-The re-written maps of 2020 did plenty of damage already. People and business have left and no large corporation will move to a state with one party rule.

-Please vote no on this for the future of Maryland.
