

## Committee: Rules and Executive Nominations

We are extremely upset and strongly against the bill HB 488, that will eliminate ALL REPUBLICAN representation in Washington, DC.

This plan will redraw the congressional redistricting maps but also change the rules for all future maps. This bill will leave the 1 million+ Marylanders who voted for Republicans in the last election with NO representation. There are also close to a million registered voters who are independent of both the Democratic and Republican, who may not go along with the State Legislature rushing to vote on gerrymandering one of eight congressional districts.

Dr. Andy Harris has a proven record of courage and common sense. Chairman of the House Freedom Caucus and Chairman of the Agriculture Subcommittee to Appropriations, he's fighting to restore fiscal responsibility to Washington and protect your hard-earned taxpayer dollars. Unafraid to stand up and speak out on your priorities and interests, he is fighting for the residents of Maryland's 1st Congressional District in Washington.

Maybe our State Legislature will work on many other bills that will keep Maryland as a state with a good economy, more good jobs, keeping taxes down, and a valuable education for our public schools.

Sincerely,

Elwin and Roberta Redfern
