

Opposition to HB488-Election Districts and Representatives in Congress

I am opposed to HB488 as a blatant act of disenfranchisement of a large number of Maryland voters. Maryland is known as one of the most severe instances of gerrymandering in the nation if not the worst. HB488 takes gerrymandering to another level in trying to eliminate the future possibility of anyone other than a member of the Democratic Party of ever being elected in Maryland.

The Democratic Party in Maryland has lost sight of the fact that they have responsibility to the citizens of Maryland, not the national Democratic Party, to keep them safe, secure, and prosperous. If HB488 becomes law, Maryland will become in effect a Communist one-party rule entity that further eliminates any chance of future reform or return to a true democracy. We have seen the outrageous economic and physical damage done to our state from the vindictive wrongful laws and executive orders targeting the Federal government from the Governor, General Assembly, and Democratic members of the Maryland Congressional Delegation due to their personal animus with the Trump Administration. Eliminating the possibility of electing anyone in opposition with the Democratic Party echo chamber will continue to drive Maryland into chaos and economic disaster.

Please vote against HB488.

Thank you.
