

Statement of Stan Forczek in support of HJ02, the National Infrastructure Bank Act

Dear Legislators,

I am Stan Forczek, and I am submitting testimony in support of HJ 02. In place of standard testimony, I am entering into the record the article I published several years ago in the Journal of Critical Infrastructure concerning the National Infrastructure Bank. This peer reviewed article makes the case for the NIB. It therefore makes the case for the Committee to pass HJ02. I am a New Jersey native, but I lived in Laurel Maryland for many years when I was working for Amtrak in the DC area. I spent 30 years as an executive at Amtrak and among other things was the Director of Finance for the Northeast Corridor. Please see this article as crucial input on the matter of the NIB. This is urgently needed for Maryland and the nation. Thank you. Stan Forczek, sforczek@gmail.com
