To Maryland General Assembly -

I am against HB 488. If passed, this new map will favor Democrats in ALL of Maryland's congressional districts, potentially force congressman Andy Harris j( MD01) out of office and may leave the 1million + Marylands who voted for Republicans in the last election with NO representation.

If this map is adopted but the MGA, Democrats will be in a position to shut republicans out of congress. This is unfair representation.

Do not disenfranchise our community and rig our elections.

Sincerely,

Jane Franczak, PT
