

Testimony on Senate Bill – Favorable

SB0984: Correctional Services - Private Immigration Detention Facilities - Zoning Requirement

Judicial Proceedings Committee

March 10, 2026

Dear Honorable Chair Smith, Vice Chair Waldstreicher, and Members of the Committee,

My name is **Mary Anne Newkirk** and I am a resident of **Howard County, MD**. I strongly urge the committee to pass SB0984.

I support SB0984 because loopholes in current Maryland law allow municipalities to approve new detention centers without the proper zoning requirements. As a result, municipalities such as Washington County have [sanctioned](#) the use of warehouses constructed to handle commodities to detain human beings, without regard to whether there is [sufficient infrastructure to safely and humanely do so](#).

Given the [human rights abuses documented at the Fallon Center in Baltimore](#), where a hundred or more immigrants are crammed into tight spaces with no access to clean water or sanitary facilities, and reports that DHS's plans to use a Washington County warehouse as a detention camp are [moving forward despite a lack of transparency and community input](#), there is a clear need to develop laws that will require municipalities to conduct greater oversight on immigration detention facilities in our state.

The warehouse in Williamsport is situated in an area of Washington County that is [not zoned for overnight habitation](#), creating a direct conflict between DHS and local laws. Despite this, Washington County officials say that they cannot require the federal government to follow local zoning laws.

We do not live in a police state, yet. It's bad enough that some people caught in this mass deportation campaign have been detained simply because of the color of their skin. Throwing them into an environment where they have no personal space, water, or toilets is unacceptable. And for ICE to run roughshod over local laws and oversight processes is bullying, police state behavior.

This bill seeks to strengthen Maryland's stance on zoning requirements for correctional facilities and provides recourse for violations of state law.

Maryland has an obligation to implement laws that protect the health and safety of all human beings, especially those who are detained or incarcerated. For the reasons stated in this testimony, I respectfully urge a favorable report on SB0984.

Thank you,

Mary Anne Newkirk
