

**Testimony on Senate Bill SB984 – Favorable**  
SB984 – Correctional Services - Private Immigration Detention Facilities - Zoning Requirement  
Judicial Proceedings Committee  
March 9, 2026

Dear Members of the Judicial Proceedings Committee,

My name is Michelle Koul, and I am a constituent of District 31. I am writing **to support SB984 – Correctional Services - Private Immigration Detention Facilities - Zoning Requirement**

I support SB0984 because loopholes in current Maryland law allow municipalities to approve new detention centers without the proper zoning requirements. As a result, municipalities such as Washington County have [sanctioned](#) the use of warehouses constructed to handle commodities to detain human beings, without regard to whether there is [sufficient infrastructure to safely and humanely do so](#).

Given the [human rights abuses documented at the Fallon Center in Baltimore](#), where a hundred or more immigrants are crammed into tight spaces with no access to clean water or sanitary facilities, and reports that DHS's plans to use a Washington County warehouse as a detention camp are [moving forward despite a lack of transparency and community input](#), there is a clear need to develop laws that will require municipalities to conduct greater oversight on immigration detention facilities in our state.

The warehouse in Williamsport is situated in an area of Washington County that is [not zoned for overnight habitation](#), creating a direct conflict between DHS and local laws. Despite this, Washington County officials say that they cannot require the federal government to follow local zoning laws.

Federal immigration officials are moving rapidly to expand their campaign of mass deportation and private sellers, such as the one that sold the Williamsport warehouse to DHS, have an interest in selling their operations as quickly as possible. But the way land is zoned for new detention centers in Maryland communities should be considered carefully and according to standards that protect human rights, safety, and the environment.

I feel like I barely recognize my country. I sadly changed out my American house flag for a Maryland flag in the hope that our state government won't disappoint me. Maryland has an obligation to implement laws that protect the health and safety of all human beings, especially those who are detained or incarcerated.

Please submit a **favorable** report on **SB984 – Correctional Services - Private Immigration Detention Facilities - Zoning Requirement**

Thank you for your time and consideration,
