

**Testimony on SB0985: Correctional Services - Immigration Detention Facilities - Minimum Mandatory Standards**

**Judicial Proceedings Committee**

**March 10, 2026**

**Position: Favorable**

Dear Honorable Chair Smith, Vice Chair Waldstreicher, and Members of the Committee,

My name is **Kit Reiner** and I am a resident of **College Park, MD**. I strongly urge the committee to pass SB0985.

This bill seeks to codify common-sense guardrails on the operation of detention centers and correctional facilities. Given reports of [human rights abuses](#) and [disease outbreaks](#) at the Fallon Center in Baltimore, where a hundred or more immigrants are crammed into tight spaces with no access to clean water or sanitary facilities, there is a clear need for laws that enforce basic health and safety standards on the operation of these facilities.

The companies that operate these facilities have a lot to gain by cutting corners on health and safety. [CoreCivic](#) and [Geo Group](#) will rake in \$1B in revenue from government contracts this year alone and their leaders consider the expansion of mass deportation in the United States “[one of the most exciting periods](#),” due to the windfalls they stand to receive.

Their goal is to create these detention centers as quickly as possible. In the absence of humane and enforceable standards for health and safety, the result is [scarce regard for how the centers treat human beings being detained or incarcerated inside their facilities](#).

**We are currently living under a fascist regime that is terrorizing the country with violent abductions into an intentionally opaque system of for-profit concentration camps rife with murder and various forms of torture. Those who oppose these actions face threats of endless harassment, financial penalties, unlawful imprisonment, and murder. If we do not do everything possible to stop the destruction of human lives, then we are complicit in the destruction of our own country. The state of Maryland CANNOT be a tool for this regime and our resources must be allocated to our residents, especially the most vulnerable.**

Maryland has an obligation to implement laws that protect the health and safety of all human beings, including those who are detained or

incarcerated. For these reasons, I respectfully urge a favorable report on SB0985.

Thank you,

**Kit Reiner**
