

HB 863 Gun Theft Felony Act of 2026

This bill has the most potential to actually make out state a safer place to live. Having real penalty for gun theft has always made more sense than a misdemeanor slap on the wrist. We as gun owners have always had the responsibility to safely store our guns – but a thief who never gets put in jail because the cost of the gun is only a petty theft. When the item stolen is worth so much more than money – it is a lethal weapon that should hold way more weight in sentencing as such. Please give this bill a favorable report!
