

Judiciary Committee
House Bill 1036
Favorable

Honorable Vice Chair and Members of the Judiciary Committee;

I hope that you will give Chair Bartlett's bill, HB1036, a favorable report.

We have witnessed the unwarranted assaults, and even murders, of people by federal agents. We have heard the lies. We're being gaslit on a daily basis. We know that the federal government isn't just refusing to hold their agents accountable, but are intentionally training them to commit illegal acts AND celebrating them for harming and killing people. The federal government seems completely unwilling to do the right thing, so it's left to the states. Please vote in favor of House Bill 1036 so that there's a chance of repercussions for some of the unlawful activities of federal agents in Maryland. Thank you.

Sincerely,
Debi Jasen
Pasadena, MD
