I am testifying in strong support of House Bill 675 — Public Safety — Immigration Enforcement — Immigration Enforcement Agreements — because it ensures that all local law enforcement agencies are aligned with federal authorities to enhance overall public safety. By mandating consistent cooperation with immigration enforcement, this legislation removes regulatory uncertainty and strengthens the consistent application of the rule of law across our correctional facilities. Passing this bill is a vital step toward protecting our communities and ensuring that Maryland plays a proactive role in maintaining secure and orderly enforcement standards.
