

I urge you to support House Bill 0083, the Family and Law Enforcement Protection Act.

Several friends have been victims of violent threats in their own homes, some with young children nearby. Their gun-owning husbands threatened to murder them. One friend's spouse threatened to shoot himself while their four year-old daughter slept in the next room.

No one should be traumatized by such brutal treatment from loved ones. If this law is not passed, more innocent victims will die. These incidents can be prevented, and it is up to you to protect your constituents and the residents of Maryland.

Thank you,
