House Bill 1417
Public Safety - Handgun Permit Requirement-Repeal
FAVORABLE

The 2022 Supreme Court ruling in Bruen relied heavily on historical analog relating to restrictions on the right of the People to keep and bear arms.

There is no historical analog supporting the right of the government to require citizens to apply for, and obtain, a government issued permit as a precondition to exercise the Peoples' Constitutional Right to keep and bear arms.

Therefore, we recommend a favorable report on House Bill 1417.

Respectfully,

John H. Josselyn
