**Testimony in support of HB0063  
Education - (Fairness in Girls' Sports Act)**

Dear Chair Delegate Jheanelle Wilkins and Members of the Committee,

Thank you for providing me the opportunity to testify in favor of House Bill HB0063.

It saddens me that we even have to have legislation to protect biological girls who wish to compete in Interscholastic/Intramural Junior Varsity and Varsity sports! You would think that protecting private spaces including locker rooms would be common sense. Unfortunately, non-sense has taken over our public schools which is why I implore you to support HB0063 Fairness in Girls' Sports act.

As recently as March 2025, it was acknowledged by Progressive Governor Gavin Newson that having biological males in girls/woman's sports is unfair to the athletes.

How many biological girls are you going to allow to be discriminated against before you finally do the right thing and take action?

As a Parent of 3 daughters, I urge you to act now. Girls are losing scholarships, being cheated out of their just awards, and are being placed in uncomfortable situations in the locker room. It's time to recognize that biological females are at a disadvantage and being subjected to injury. Please be on the right side of history and pass HB0063!

This is why I strongly urge you to vote yes on HB0063!

Thanks,

Glen Geelhaar 443 695-3556
