

HB 1310: Public High Schools - Student Transcripts - Traumatic Loss Notation: Please vote to **SUPPORT** this bill.

Dear Ways & Means Committee:

I am writing to respectfully **support HB 1310**, concerning *Public High Schools – Student Transcripts – Traumatic Loss Notation*.

Students sometimes experience profound personal hardships during their high school years, including the death of a parent, guardian, or close family member. Such traumatic events can significantly affect a student's academic performance, attendance, and overall well-being during a critical period of their education.

HB 1310 offers a thoughtful and compassionate approach by allowing a notation on a student's transcript to reflect that a documented traumatic loss occurred during the academic period in question. This **provides important context for colleges, scholarship committees, and other institutions reviewing transcripts, helping them better understand circumstances that may have affected a student's academic record.**

This bill does not change grades or academic standards; rather, it simply ensures that students who have endured significant hardship are not evaluated without consideration of the challenges they faced. Providing this context promotes fairness while acknowledging the real-life difficulties some students must overcome.

Supporting students through times of loss reflects a humane and balanced approach to education policy. **Recognizing hardship while maintaining academic integrity can help ensure that students are evaluated more holistically during important transitions after high school.**

For these reasons, I respectfully urge you to **support HB 1310**.

Thank you for your time and thoughtful consideration.

Respectfully,

Trudy Tibbals
