Letter of Support for HB1140

The Board of Directors of the PTA Council of Baltimore County, Inc. -- the official parent stakeholder group of Baltimore County Public Schools (BCPS), which supports and trains nearly 130 PTA units in BCPS – recently voted to support aligning councilmanic districts and school board districts. This means that the Baltimore County Board of Education (BOE) would have 9 elected members and 2 members appointed by the Baltimore County School Board Nominating Commission.

In our opinion, aligning councilmanic and school board districts would:

- improve interactions between BOE members and their constituents because school board districts would be smaller; and
- reduce confusion for community members when voting for school board members.

Thank you for your consideration.

Leslie Weber
President
PTA Council of Baltimore County, Inc.
