Testimony on HB 0468

Health and Taxation -

Digital Social Media Services and the Mental Health Care Fund for Children and Youth

Ways and Means

Position: Favorable

As a constituent of St. Mary's County, MD, licensed clinical professional counselor and Board approved supervisor of mental health professionals in the State of Maryland, I strongly urge the Committee to vote favorably on HB 0468 to ensure mental health care protections for our children & youth in Maryland by securing necessary funding for this essential service via digital social media services taxation. The establishment and improved accessibility of the Mental Health Care Fund for Children and Youth outlined in HB 0468 are essential to ensuring that our developing young people are protected, supported and afforded the opportunity to heal and thrive.

Respectfully submitted,

Jennifer Clancy, Candidate for Maryland State Delegate 29A
