

Testimony in Support of HB 1115

Before the Maryland House Ways and Means Committee

March 6, 2026

Dear Chair and Members of the Committee,

I am a Maryland resident writing in support of Maryland House Bill 1115. Teachers who maintain certification through the National Board for Professional Teaching Standards continue to meet rigorous professional standards, and they deserve to be recognized for that commitment. Correcting this unintended policy gap is a fair and reasonable step that shows Maryland values experienced educators who support our students and communities.

Thank you for your consideration.

Respectfully,

David Robinson

Maryland Resident

Annapolis, Maryland
