

House Bill 905

Recipients of State and Local Government Funding - Reporting (Buy Maryland Reporting Requirements)

Position: **OPPOSE**

To: **Ways and Means** Committee

Date: February 24, 2026

From: County Commissioners of Worcester County

Worcester County opposes House Bill 905.

As well intentioned as this bill may be, it comes with administrative burdens and increased costs for county governments.

Counties are already subject to state oversight but this bill would require us to make numerous changes to current procedures. While we support transparency and accountability, we view this as an unfunded mandate that will increase administrative duties and reporting requirements.

We urge you to oppose this bill in its current form. Thank you.
