

Dear Members of the Maryland House of Delegates,

We oppose HB 930.

Families deserve the right to make choices in the education of their children. This bill punishes Maryland families who start a Trump account by raising taxes if they use it. It will also strip away the Maryland's 529 state tax deduction if a family starts their own savings for K-12 tuition.

That means that parents who responsibly saved could see their tax benefit clawed back simply because they chose an educational setting that works best for their child.

Many in the legislature and our current Governor can afford to send their children to expensive private schools. They have access to healthy bank accounts to do so. All children in Maryland deserve this chance, especially those families who are willing to responsibly save up to provide an appropriate education for their child. If our legislators and our Governor have that right, shouldn't they?

We strongly urge you not to pass HB 930.

Sincerely,

Jan Greenhawk
