Pursuant to Section 35.107 of the U.S. Department of Justice (DOJ) regulations, the Department of Legislative Services' Information Officer has been designated to coordinate compliance with the nondiscrimination requirements of Part 35 of the DOJ regulations, which implement provisions of the Americans with Disabilities Act. Requests for assistance should be directed to the Information Officer at the telephone numbers shown above.

# Introduction

---

The *Guidelines for the Submission of Legislative Bond Initiatives and Prior Authorization Amendments to the General Assembly of Maryland* is published by the Department of Legislative Services to assist those requesting funding from the Maryland General Assembly (MGA) for capital projects through legislative bond initiatives (LBI). The manual provides a summary of the basic eligibility requirements and evaluation criteria, the legislative process, and the schedule for LBI consideration as well as requests for amendments to prior authorizations and other capital requests. These projects include various cultural, historic, health, educational, and economic development projects not funded by other State capital grant and loan programs. All projects receiving funding will be required to complete necessary additional documentation beyond the initial LBI request as required by the Department of General Services (DGS) on behalf of the State of Maryland.

## Overview of the Capital Budget (Consolidated Capital Bond Loan)

The capital budget bill, synonymous with the Maryland Consolidated Capital Bond Loan bill, is introduced by the Presiding Officer of each chamber of the General Assembly as an Administration bill. The capital budget bill sets forth the amount of State debt to be created and details the amount to be allocated to specific purposes for each proposed capital project. It also specifies the source of funds to pay the debt created – the State property tax. The capital budget bill is assigned to the budget committees and cannot be passed until the operating budget bill has been enacted.

Both legislative budget committees, the Senate Budget and Taxation Committee and the House Appropriations Committee (the committees), review proposed projects in the capital budget bill through separate capital budget subcommittees. The committees bring the capital budget bill to the floor in a manner similar to the operating budget bill, using a committee reprint.

The General Assembly has the power to modify the capital budget bill in any manner since it is a supplementary appropriation bill. The projects proposed by the Governor may be deleted, the amounts allocated for specific purposes of a project may be increased or decreased, or the General Assembly may add specific projects and dollar amounts.

# Guidelines for the Submission of Legislative Bond Initiatives

---

## State Funding of Legislative Bond Initiatives

Through the support of a legislative sponsor, applicants may request funding from the MGA for a capital project. The number and type of projects funded by the MGA is limited – requests for funding greatly exceed available resources each year. In some years, the total amount requested for local capital projects has exceeded 10 times the available resources. Thus, the eligibility and priority of sponsored projects is heavily scrutinized to ensure that State-authorized funds will be expended expeditiously and for projects that serve a public purpose in the community in which they are located.

## Legislative Sponsorship

While any organization may seek funding for a capital project, organizations must arrange for legislative sponsorship of an LBI so that the Department of Legislative Services (DLS) can begin the process of administering the request. Although not required, LBI projects are encouraged to be cross-filed in both legislative chambers. Failure to obtain a cross-file will preclude an applicant from obtaining funding in both chambers. Organizations, therefore, should arrange for both a senate and delegate sponsor. Please note: A cross-file is for the already established funding amount request, not an additional amount. (*i.e.*, If a Senate sponsor requests \$50,000, a House cross-file is *not* for an additional \$50,000, equaling \$100,000. The total request is still \$50,000, which may be split between the two chambers or funded entirely in one chamber, as determined by the proceedings.)

Sponsors are generally from the district where the proposed project is located; however, a legislator who has a personal interest in the project may also be willing to sponsor the LBI. Each LBI may also have a sponsor and two co-sponsors, should more than one senator or delegate wish to sponsor the same LBI. In some cases, delegates representing the same legislative district may choose to co-sponsor LBIs or indicate an entire delegation as the sponsor. Information necessary for sponsorship of a project demonstrating the merits of the project includes:

- the reason for, justification for, and importance of the project;
- the location, size, and scope of the project;
- the type of work required and a schedule for completion;
- current cost estimates for the entire project, with a cost breakdown by phase; and
- anticipated funding sources (private, State, federal, and local government).

## Project Eligibility and Prioritization Criteria

LBIs are subject to several required and suggested criteria that the General Assembly uses to assess each project's eligibility and need for State funding. The General Assembly receives a large volume of requests for funding each year and therefore must determine each project's basic eligibility and level of priority in the context of the total project requests received that year. These criteria are discussed in the following sections and are also summarized in **Appendix 1**.

### Eligibility Criteria

Projects must meet certain criteria to be eligible for funding consideration.

- ***A Project Must Be Capital in Nature:*** A capital project deals with the development of land and/or renovation and construction of structures. Capital projects do not include items such as employee salaries, benefits, expendable equipment (*i.e.*, automobiles), or operating costs.
- ***A Project Must Have a Useful Life of 15 Years:*** Capital projects, including LBIs, must have a useful life greater than or equal to the life of the bonds sold to finance the project, which are limited by the State Constitution to 15 years. Items such as automobiles and computers do not have a useful life of 15 years.
- ***An LBI applicant must own the property or have at least a 15-year lease:*** An organization that is leasing land and/or a structure relating to the proposed capital project must demonstrate that the lease including all negotiated extensions will extend for 15 years or more, otherwise, the State will require the property owner either be a co-grantee in the grant authorization or agree to be a beneficiary in the grant agreement with the State.
- ***A Project Must Serve a Public Purpose:*** Capital funds may be distributed to private organizations but must be used for projects that serve a public purpose.
- ***Project Funds May Not Be Used for Religious Purposes:*** No portion of the proceeds of a grant or loan or any of the matching funds provided (if matching funds are required) for a project may be used (1) for the furtherance of sectarian religious instruction; or (2) in connection with the design, acquisition, construction, or equipping of any building used or to be used as a place of sectarian religious worship or instruction. If the LBI request supports a religious organization, the applicant should be prepared to submit a letter certifying that the funds will not be used to make capital improvements to space where religious instruction will take place.

## Prioritization Criteria

After the General Assembly determines the eligibility of a project, all projects are evaluated based upon criteria from the information provided in the request form to prioritize projects in the context of all requests received for that year.

- **Alternative Funding:** Applicants should demonstrate that they have explored alternative sources of funding. In addition to requesting alternative funding from agencies, corporations, etc., an applicant may be asked to show whether a potential revenue source, such as entrance fees, membership fees, or concession profits, could cover the cost of the capital project. Please refer to **Appendix 2** of this document for information on potential alternative sources of funding for LBI requests through State capital grant and loan programs.
- **Delegation Support:** In an effort to leverage legislative initiative funding, the General Assembly may give special consideration to county delegation priorities.
- **Matching Funds and Funding Plan:** Applicants may be required to provide a matching fund for their project. The committees will review the strength of an applicant's funding plan and a strong application includes adequate non-State funding sources that demonstrate the ability of the applicant to complete the project.
- **State or Local Purpose:** Priority for funding may be given to local projects that serve a wide spectrum of the community or the State as well as an important public purpose.
- **Municipal/Governmental Projects:** Projects that fund municipal and local government facilities, including local police and fire department buildings and public works facilities, are typically not prioritized by the committees.
- **Construction Readiness:** Projects that show a history of adequate fundraising or documentation of adequate future funding (e.g., letters of commitment) generally are given priority. Awarding funds to projects that are not ready to move forward reduces the funds that are available for projects that are ready. Shovel-ready, high-impact projects that can be certified as ready to proceed with design and construction within an 18-month period from the effective date of the capital budget bill in which they receive funding are typically given priority consideration. Construction readiness will be evaluated based on the extent to which project programs and designs are in place; necessary permits are specified, applied for, or approved; and a project financing plan is in place, including commitments from other funding partners.
- **Employment Creation/Retention:** Project funding consideration will include an evaluation of project employment creation and/or retention. Special consideration may be given to projects that can demonstrate significant employment opportunities.

## Legislative Consideration and Approval Process

The legislative consideration portion of the LBI process begins with identification of a legislative sponsor, typically in the fall or winter preceding a legislative session and ends with final LBI funding decisions passed in the capital budget bill by early April. Visit the MGA website <https://mgaleg.maryland.gov/mgawebsite/Members/District> and use the Look Up feature to identify specific legislative representatives.

### Schedule

LBIs move through the General Assembly under the following schedule:

- ***Mid-January to Early February:*** The deadline for sponsors to send LBI requests to DLS to guarantee that they are prepared by the introduction deadline that is the *27th day of session for Senate members and the 31st day of session for House members*.
- ***Early March: The 55th day*** of session is the deadline for members to introduce LBIs (introduction deadline) without having to request suspension of the introduction rules.
- ***Late March/Early April:*** Each chamber evaluates LBIs that have been introduced. Approved LBIs are amended into the capital budget bill.
- ***Mid-April:*** Both chambers vote on the final capital budget bill, which includes the approved LBIs.
- ***June 1:*** Effective date for the capital budget bill.

### Request Preparation

To make an official request, an applicant must send a Capital Funding Request Form, available under the Budget tab on the MGA website (by selecting Bond Initiatives and then Documents) to a legislator for sponsorship. (See **Appendix 3.**) One form is used for both LBI requests and prior authorization amendments. The legislative sponsor must submit the request form via email to [LegislativeBondInitiative@mga.maryland.gov](mailto:LegislativeBondInitiative@mga.maryland.gov). The request form identifies information required by DLS in order to prepare an LBI for introduction. An organization seeking funding should ensure that its sponsor has the information required on the request form to make the request. While the initial request for an LBI must come directly from a member or the member's staff, the member must be sure there is a designated local applicant contact for communication for the remaining preparation of the LBI.

It is very important that **the name of the legally incorporated entity to receive a state grant authorization is the same name that is on record with the State Department of Assessments and Taxation (SDAT)**. Furthermore, the legally incorporated entity on the capital grant authorization must also match the name listed on the grant application form that must be signed and returned to the Department of General Services (DGS). Legal entity information can be found on the SDAT website at <https://egov.maryland.gov/BusinessExpress/EntitySearch>

## Matching Requirements

The capital budget bill that authorizes a grant to an organization may include language that requires the organization to raise a matching fund. A matching fund may be greater than, equal to, or less than the State contribution, though at least an equal match is typically preferred. The specific language in your authorization will describe any matching-fund requirement.

Matches are classified as “hard” or “soft.” A hard match is “cash in hand” and may include money from any source other than State sources. A soft match may be made up of real property, in-kind contributions consisting of donated services or materials, or funds expended for the project prior to the effective date of the capital budget bill – June 1 of the year that the bill is passed. A soft match may consist of a combination of the previously mentioned elements, including cash. Please note that real property may not be used as a source of matching funds unless the grantee has the title to the property and can demonstrate sufficient equity in the property to meet the match fund requirement.

Grant recipients must submit proof of their matching fund to the State to be certified in full within two years after a grant authorization is enacted. Failure to have your match timely certified may result in the termination of grant funds (State Finance and Procurement § 8-128). No part of the grantee's matching fund may be provided, either directly or indirectly, from funds of the State, whether appropriated or unappropriated. This includes State funded property acquisitions, State grants or any other property obtained with grant funds.

## Formal Introduction

Once the completed LBI request has been submitted by the legislative sponsor and entered into the LBI System by DLS, the sponsor will receive an email acknowledging receipt of the request, followed by the delivery of four printed copies of the internal LBI Introduction Document (the "green sheet"). (See **Appendix 4**.) Documents for requests submitted before the start of the legislative session will be delivered no earlier than the first day of session.

Introduction of an LBI is accomplished by the sponsor delivering all copies of the LBI Introduction Document to the Secretary of the Senate or the Chief Clerk of the House. One copy of the document must be signed by the sponsor and all co-sponsors. Documents will be processed for introduction in batches, and the LBIs in each batch will be indicated on sequentially numbered Introductory LBI letters. As each letter is introduced and entered into the proceedings, each corresponding LBI will populate the current session's Bond Initiatives Funding report (available on the Budget tab of the MGA website by selecting Bond Initiatives and then Funding).

## Fact Sheet Submission

Upon introduction, the applicant organization seeking funding will receive an email containing instructions for submission of the web-based LBI Fact Sheet. (See **Appendix 5** for detailed instructions for completing each field of the fact sheet.) The email will contain a link and access to the applicant's specific fact sheet for submission. The lead sponsor will receive a notification email regarding the applicant's receipt of the fact sheet instructions. It is important that the applicant retain the fact sheet email, as the provided link can be used by the applicant to gain access to the fact sheet at any time up until it is submitted.

The fact sheet describes in detail and justifies the LBI project and provides information required by the General Assembly. The budget committees primarily rely on the information in the fact sheets when making funding decisions.

Please note that fields 1 through 9 of the fact sheet are automatically completed by the system from the information provided to DLS at introduction. Fields 1 through 9 are locked and cannot be modified by the organization when completing the fact sheet. If the information contained in fields 1 through 9 is incorrect, please contact DLS to request a change.

After the applicant has completed the fact sheet, the form should be submitted to DLS using the “submit” button available at the top of the fact sheet screen. Once submitted, the form will be linked to the current session’s Bond Initiatives Funding report, available on the Budget tab of the MGA website by selecting Bond Initiatives and then Funding, and accessible for public review.

## Funding Decisions and Project Tracking

As part of the decision-making process on the capital budget bill, each chamber’s selected LBI projects are amended into the capital budget bill and included in the committee report that is presented to the House of Delegates and the Senate. The chamber that acts on the capital budget bill first each year alternates: the Senate acts first in even-numbered years, and the House acts first in odd-numbered years.

Applicants are strongly encouraged to track the progress of the capital budget bill throughout the committee decision process. Decisions concerning capital projects and amendments to the capital budget bill, including funding for LBIs, generally are not made until committee action on the operating budget bill is completed. The committees bring the capital budget bill to the floor in a manner similar to that for the operating budget bill – *i.e.*, a reprint of the bill incorporating committee amendments and a report explaining each amendment. As the capital budget bill is approved by each chamber, LBI funding decisions will be updated on the current session’s Bond Initiatives Funding report, available on the Budget tab of the MGA website by selecting Bond Initiatives and then Funding. (See **Appendix 6**.) Additional information the legislative process is available on the MGA website: <https://mgaleg.maryland.gov/mgawebsite/Legislation/Publications>.

## **After Project Authorization**

The State, through DGS, requires LBI grantees and grantees receiving other miscellaneous capital grants to complete and submit necessary documents to DGS in order to execute a grant agreement and disburse the grant funds.

## **Grant Management**

Although the Board of Public Works ultimately determines whether all requirements have been met to receive a grant, DGS administers the Capital Grants Program on behalf of the Board of Public Works and is the point of contact for grantees. After the General Assembly has authorized funding, grantees will receive further instructions via email on how to proceed with the document submission process through the DGS web portal.

If organizations wish to familiarize themselves with the process or have questions about receiving LBI funds after the authorization, the organization should visit the DGS website for information pertaining to the capital grants projects policies and procedures: <https://dgs.maryland.gov/Pages/Capital%20Grants/index.aspx>.

## Guidelines for the Submission of Prior Authorization Amendments

---

Occasionally, organizations may receive legislative authorization for funding of an LBI or other miscellaneous State capital grant but then discover that certain information in the authorizing language needs to be changed in order for the organization to access the grant funding. Under those circumstances, the organization should first consult with the DGS to determine if an administrative change can be made pursuant to Section 1(9) of their enabling act. If the desired change to the grant authorization cannot be accomplished through Section 1(9) the organization will need to seek a “prior authorization amendment.” A prior authorization amendment is a request to alter an authorization of State debt enacted during a prior session. Alterations can include:

- extending the time to present evidence of a matching fund;
- modifying the types of funds that can be used as a matching fund;
- modifying the amount of a matching fund;
- extending the time to expend or encumber the funds;
- modifying the scope and/or purpose of the project; and
- adding, removing, or modifying the grantee organization.

### Legislative Sponsorship and Initial Request

Only a member of the MGA may request amendments to a prior-enacted authorization, and only authorizations funded with general obligation bond funds may be subsequently amended by an act of the General Assembly. Generally, legislative sponsors are from the district where the project is located.

The Capital Funding Request Form, as shown in **Appendix 3**, is a single form that is used for both LBI requests and prior authorization amendments. There is no separate form for prior authorization amendments as in past years. **Please note that unlike the LBI process, there is no formal legislative introduction required for prior authorization consideration.**

**Important Note:** If a prior authorization request proposes to repurpose in whole or in part the funds of a prior-authorized grant thus creating a new project, two separate actions are required. The first action is an amendment that deauthorizes in part or in whole the prior authorized grant funds. The second action creates a new grant request for consideration by the budget committees. Be sure to clearly explain this intent on the request form and check the boxes for both "Prior Authorization Amendment" and "Other Capital Request" in the Type of Request section of the form. Use the Project Description section of the form to describe the new project being created, and the Additional Comments section to further describe the project as necessary.

In order to make an official request, the legislative sponsor must complete a Capital Funding Request Form, and submit the form by email to [Prior.Authorization@mga.maryland.gov](mailto:Prior.Authorization@mga.maryland.gov). The request form identifies information required by the DLS to complete the prior authorization request process, and the requesting member should ensure that they can provide the information required to complete the request form. In addition, the requesting member must also designate and be prepared to coordinate with a grantee contact person to facilitate the request process.

## **Committee Consideration and Tracking**

Member requests are consolidated and included in the annual capital budget bill. Prior Authorization amendment requests are processed as part of the bill considered by the budget committees prior to final passage late in session.

The instructions and form needed to successfully navigate the prior authorization amendment process can be found under the Budget tab of the MGA website. Archived prior authorizations can be found using the Search and Archives tab on the MGA website: <https://mgaleg.maryland.gov/mgawebsite/Budget/Legislation>.

## Appendix 1

# Legislative Bond Initiative Funding Eligibility

---

- Projects should be ready to move forward (“shovel-ready”), including having sufficient other source funds immediately available, to be considered eligible for receiving LBI funds. Applicants should briefly outline the project funding plan and provide letters of support from organizations and local governments listed as supporting the project funding plan.
- LBI funds may not be used to fund projects with sectarian purposes. If the request supports a religious organization, the applicant must provide a letter certifying that the funds will not be used in furtherance of sectarian purposes. Grantees must also sign an affidavit not to use any authorized State grant funds for religious purposes.
- LBI funds should be used only to fund projects that benefit the public. Applicants should briefly describe the public purpose or benefit of their project within the Capital Funding Request Form submitted for support of the project request.
- LBI funds are not prioritized for municipal buildings, government buildings, local police department buildings, and local fire department buildings.
- An LBI applicant must own the property or have at least a 15-year lease. An organization that is leasing land and/or a structure relating to the proposed capital project must demonstrate that the lease will extend for 15 years or more, otherwise, the State will require the property owner to either be a co-grantee or agree to be a beneficiary in the grant agreement with the State.
- LBI’s will be authorized as nonmatching fund grants unless otherwise specified in the project authorization.
- LBI funds should not be used to fund projects eligible for other State capital funding. Applicants should be able to demonstrate that they have explored funding opportunities through other State capital grant and loan programs.

## Legislative Bond Initiative Funding Considerations

YES NO

- Does the project have a public purpose or benefit?**
- Does the project support a nonsectarian purpose?** State funds may not be used to construct a building in which religious services, Sunday school, or religious education will be held, regardless of other non-religious uses planned for the building.
- The committees discourage the use of limited LBI funds for municipal, governmental, local police department, or fire department building projects. **Does the project meet this criteria?**
- Does the applicant own or have a minimum 15-year lease for the property where the project is taking place?** If the property is not owned by the applicant a letter from the applicant indicating that the property owner agrees to either be a co-grantee or a beneficiary in the grant agreement must be provided.
- Has the applicant explored whether the project may be eligible for State funds available through other State capital grant and loan programs?** Appendix 2 contains information on potential alternative sources of State funding.
- Has the applicant applied for funding through other State capital grant and loan programs?**
- Does the applicant have sufficient funding available to fully support the project?**
- Is the project able to begin construction soon?** Are there elements of the project that can be completed within an 18-month period from the effective date of the capital budget bill? Construction readiness includes the extent to which project programs and designs are in place; necessary permits are specified, applied for, or approved; and a project financing plan is in place, including commitments from other funding partners.

## **Maryland General Assembly Capital Funding Request Form**

## Type of Request

Legislative Bond Initiative     Prior Authorization Amendment     Other Capital Request

Total Amount Being Requested: \$\_\_\_\_\_

Total Estimated Project Cost: \$ \_\_\_\_\_

### Matching Fund Requirements:

None       Equal      or       Unequal \$

If match is required, matching funds may include:

Cash       Real property       In-kind contributions       Prior funds expended

*Applicants may be required to provide matching funds for their projects that may be greater than, equal to, or less than the State contribution, though at least an equal match is typically preferred. Matches may be classified as "hard" or "soft." A hard match is "cash in hand" from any source other than State sources. A soft match may be made up of real property, in-kind contributions consisting of donated services or materials, or funds expended for the project prior to the effective date of the capital budget bill – June 1.*

## Project Information

Project Name: \_\_\_\_\_

Project Location County: \_\_\_\_\_ Legislative District: \_\_\_\_\_

### Project Description:

AMERICAN  
OPTICAL  
CORPORATION

Briefly describe the Scope of the Project:

...for the acquisition, planning, design, construction, expansion, repair, renovation, reconstruction, site improvement, and capital equipping of...

# SKY

## Contact Information

Legal Name of Grantee Organization:

If a corporation or non-profit organization, give name exactly as registered with the State Department of Assessments and Taxation: <https://egov.maryland.gov/BusinessExpress/EntitySearch>. If a local government, give official name used for business transactional purposes. Additionally, if a religious organization, be aware that funds may not be used for the furtherance of an essentially religious endeavor. Please see <https://dgs.maryland.gov/Pages/Capital%20Grants/GrantIntake.aspx> for more information.

Contact Name: \_\_\_\_\_

Contact Phone: \_\_\_\_\_

---

Contact Email:

Contact Mailing Address:

Legal Name of Property Owner if not the Grantee:

If an LBI applicant does not own the property or have at least a 15-year lease, there is a requirement to have the owner agree to be a co-grantee or a beneficiary in the grant agreement with the State.

**Sponsor Information** (Required for Legislative Bond Initiatives)

---

**Instructions:** This is an official Legislative Bond Initiative (LBI) document.

Please sign where indicated and obtain the signatures of any cosponsors.

Please note there is a maximum of three sponsors per LBI.

Once all signatures have been obtained, the document can be delivered to the Secretary of the Senate/Chief Clerk for formal introduction.

**NOTE:** If you need changes made to the LBI document before it is introduced, the **changes must be approved** and entered into the LBI System **by the Department of Legislative Services (DLS)**. The Secretary of the Senate/Chief Clerk will NOT accept a document for introduction that includes changes not approved by DLS. To have any necessary changes approved, please email [legislativebondinitiative@mlis.state.md.us](mailto:legislativebondinitiative@mlis.state.md.us) Once changes have been made a new LBI document will be reprinted and delivered to the sponsor.

## Appendix 5

# Instructions for Completing the State of Maryland Legislative Bond Initiative Fact Sheet

---

### Introduction

The Maryland General Assembly (MGA) uses the Legislative Bond Initiative Fact Sheet to collect important information about legislative bond initiative (LBI) grant funding requests that have been introduced for legislative consideration by one or more legislators. The fact sheet describes the project in detail, justifies the LBI project, and is the primary document that the budget committees rely on when making funding decisions. Each organization that applies for LBI funding must complete and submit a fact sheet to the Department of Legislative Services (DLS) prior to the LBI being scheduled for a hearing.

### Fact Sheet Procedure

DLS utilizes an LBI request database and electronic fact sheet procedure. Upon formal legislative introduction of a Legislative Bond Initiative Document by a legislator, the local applicant contact will receive an email from DLS that provides a link and access to the applicant's specific fact sheet for completion.

Brevity is as important as accuracy in completing the form. The form is designed to be a four-page document, and the individual fields are character limited. If the applicant finds it necessary to provide information that will not fit in a particular field, additional space is provided in field 28. However, applicants should keep in mind that important information may get lost in lengthy documents, particularly in the context of legislators' compressed work time during the 90-day legislative session.

The system allows the applicant to save the fact sheet for completion at a later time or date using the "save" button. The save button can and should be used often to ensure that any completed work is not lost. In addition, the applicant can save completed work and exit the document using the "save/exit" button.

Once completed, the applicant should submit the fact sheet electronically using the "submit" button. Applicants are encouraged to complete the fact sheet within **five days** of receiving the fact sheet email to allow time for sufficient review and posting on the MGA website. Completed fact sheets will be accessible to the public via the Bond Initiative Funding report, located on the Budget tab of the MGA website by selecting Bond Initiatives and then Funding.

Questions concerning the preparation of the Fact Sheet should be sent via email to [LegislativeBondInitiative@mga.maryland.gov](mailto:LegislativeBondInitiative@mga.maryland.gov).

## Explanation of Fields

The following provides instructions for completing each field of information in the fact sheet. Please note that fields 1 through 9 of the fact sheet will be automatically completed and are locked. If an applicant needs to make changes to fields 1 through 9, the applicant should contact DLS.

| <u>Field</u> | <u>Explanation</u>   |
|--------------|--|
| 10           | <b>Description and Purpose of Organization:</b> Describe in a paragraph the grantee organization's purpose, goals, and activities and how the project is expected to support them.   |
| 11           | <b>Description and Purpose of Project:</b> Describe the nature and size of the project and why it is needed so that the scope of the project is clear and the reader will understand what problems will be addressed. Include quantifiable data such as square footage, people to be served, or jobs to be created. (Additional space is available for an extended answer in Field 28.)  |
| 12           | <b>Estimated Capital Costs:</b> <ul style="list-style-type: none"><li>• <b>Acquisition:</b> List the actual purchase price or the appraised value of the property only if acquired real estate is part of the project cost.</li><li>• <b>Design:</b> List only architectural/engineering fees for actual design work. Do not list the costs of any separate feasibility studies, master plans, alternative plan proposals, consultant fees, or lawyer fees.</li><li>• <b>Construction:</b> List the estimated cost to complete the construction phase. If design is underway, the applicant should consult the architectural/engineering firm under contract for the most up-to-date construction cost estimate possible.</li><li>• <b>Equipment:</b> List only the cost of movable equipment expected to last 15 years. Do not include items that can be easily carried away, can be consumed, are subject to breakage, are electronic in nature (such as computers), or can be driven offsite.</li></ul> |
| 13           | <b>Proposed Funding Sources:</b> The first item listed should be the amount of the requested State grant. List as many other sources that apply to your project. These might include prior State grants, private fundraising, federal grants, foundation grants, cash reserves, or a mortgage.   |
| 14           | <b>Project Schedule:</b> List the month and year that each event will take place. If the activity has already taken place or started, state "Completed" or "Underway."   |
| 15           | <b>Total Private Funds and Pledges Raised:</b> List only the amount raised from private fundraising or pledges that you have in hand. Do not list other grants, reserves, or a mortgage for which you intend to apply. You may insert information at a later date if more current information is available.  |
| 16           | <b>Current Number of People Served Annually at Project Site:</b> Record the number of people now served and indicate if they are visitors, patients, families, students, etc.  |
| 17           | <b>Number of People to Be Served Annually After the Project Is Completed:</b> Record this in the same manner as item 16.   |

| <b>Field</b> | <b>Explanation</b>  |
|--------------|---|
| 18           | <b>Other State Capital Grants to Recipients in the Past 15 Years:</b> List the year of legislative approval, amount, and purpose of any prior capital grants your organization has received. If you are a government agency, list only those grants pertaining to the project or project location. If there have been no other State capital grants, simply state “None.”   |
| 19           | <b>Legal Name and Address of the Grantee and Project Address, if Different:</b> <ul style="list-style-type: none"> <li>Record the legal name of the grantee. The legal name of the grantee must match the legally incorporated name that is on file with the State Department of Assessments and Taxation and be the same legal entity that will be recorded on the grant application with the State.</li> <li>Record the address of the grantee. If the project is located at a site other than that of the grantee, record the project address to the right. For example, two addresses might be listed if an organization’s headquarters office is different from the site of the project. The project address should be specific enough so that the site could be visited.</li> </ul> |
| 20           | <b>Legislative District:</b> From the drop-down menu, select the legislative district number in which the project is located. District information can be found at <a href="https://mgaleg.maryland.gov/mgawebsite/Members/District">https://mgaleg.maryland.gov/mgawebsite/Members/District</a>  |
| 21           | <b>Legal Status of Grantee:</b> Select one of the options listed.   |
| 22           | <b>Grantee Legal Representative:</b> Supply the name, phone number, and address of the organization’s legal representative.   |
| 23           | <b>If Match Includes Real Property:</b> Complete this field if the matching funds include real property. Indicate whether an appraisal has been done and, if so, list the appraisal dates and value.<br><b>IMPORTANT NOTICE:</b> Currently, LBI’s grants will not require grantees to provide a matching fund.  |
| 24           | <b>Impact of Project on Staffing and Operating Cost at Project Site:</b> The projected number of employees should include current employees as well as additional employees attributable to the project. Current and projected operating budget figures should be rounded to the nearest thousand dollars.  |
| 25           | <b>Ownership of Property:</b> Supply the information requested. When asked if the grantee will own or lease the property to be improved please select either “own” or “lease.”  |
| 26           | <b>Building Square Footage:</b> Provide the gross square footage of existing space, space to be renovated, and space to be constructed.   |
| 27           | <b>Year of Construction of Any Structures Proposed for Renovation, Restoration, or Conversion:</b> Provide the age of the structure being renovated, restored, or converted.  |
| 28           | <b>Comments:</b> Additional space that may be used to provide general comments or additional comments that would not fit into another field.  |

|  |   |   |                          |
|  |   |   |                          |

**24. Impact of Project on Staffing and Operating Cost at Project Site**

| Current # of Employees | Projected # of Employees | Current Operating Budget | Projected Operating Budget |
|------------------------|--------------------------|--------------------------|----------------------------|
|                        |                          |                          |                            |

**25. Ownership of Property (Info Requested by Treasurer's Office for bond purposes)**

| A. Will the grantee own or lease (pick one) the property to be improved?                    |                |                       |                       |
|---|----------------|-----------------------|-----------------------|
| B. If owned, does the grantee plan to sell within 15 years?                                 |                |                       |                       |
| C. Does the grantee intend to lease any portion of the property to others?                  |                |                       |                       |
| <b>D. If property is owned by grantee and space is to be leased, provide the following:</b> |                |                       |                       |
| Lessee  | Terms of Lease | Cost Covered by Lease | Square Footage Leased |
|   |                |                       |                       |
|   |                |                       |                       |
|   |                |                       |                       |
|   |                |                       |                       |
|   |                |                       |                       |
|   |                |                       |                       |

**E. If property is leased by grantee - Provide the following:**

| Name of Leaser | Length of Lease | Options to Renew |
|----------------|-----------------|------------------|
|                |                 |                  |
|                |                 |                  |
|                |                 |                  |
|                |                 |                  |
|                |                 |                  |
|                |                 |                  |
|                |                 |                  |

**26. Building Square Footage:**

|                           |  |
|---------------------------|--|
| Current Space GSF         |  |
| Space to be Renovated GSF |  |
| New GSF                   |  |

|  |  |
|--|--|
| <b>27. Year of Construction of Any Structures Proposed for Renovation, Restoration or Conversion</b> |  |
| <b>28. Comments</b>  |  |
| SAMPLE   |  |

## Appendix 6

# State of Maryland Legislative Bond Initiative Tracking

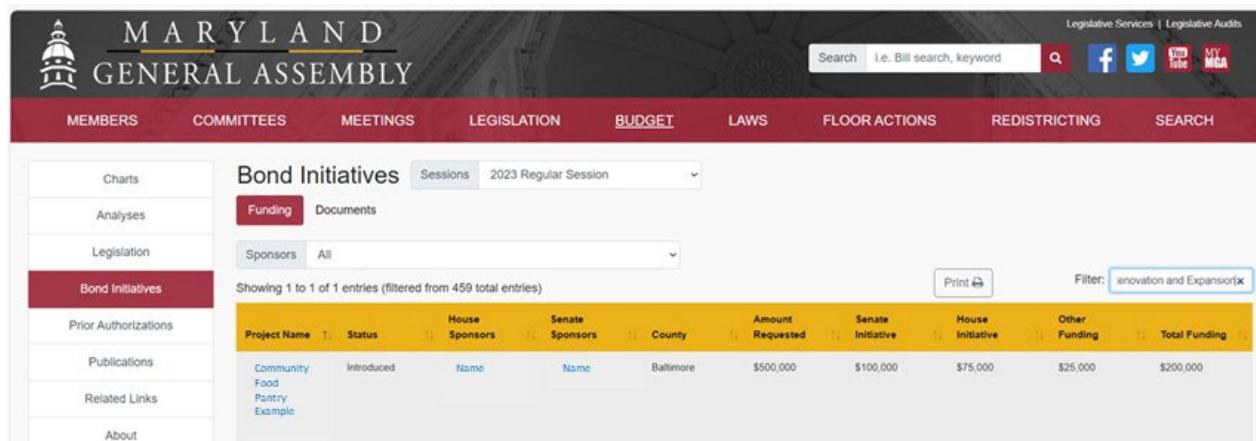

---

### Introduction

Legislators, applicants, and the general public can track the status of an LBI from the MGA website. At the time each LBI is introduced and entered into the proceedings, the current session's Bond Initiatives Funding report (available on the Budget tab of the MGA website by selecting Bond Initiatives and then Funding) will be populated.

As the capital budget bill is approved by each chamber, LBI funding decisions will also be updated on the Bond Initiatives Funding report. Prior session versions of the report are maintained on the MGA website under the Search & Archives tab and then select Bond Initiatives.

### Sample View from MGA Website

The screenshot shows the Maryland General Assembly website. The navigation bar includes links for MEMBERS, COMMITTEES, MEETINGS, LEGISLATION, BUDGET, LAWS, FLOOR ACTIONS, REDISTRICTING, and SEARCH. The BUDGET link is highlighted. The main content area is titled "Bond Initiatives" and shows a table of 459 entries. The table includes columns for Project Name, Status, House Sponsors, Senate Sponsors, County, Amount Requested, Senate Initiative, House Initiative, Other Funding, and Total Funding. A single entry is visible in the table:

| Project Name                  | Status     | House Sponsors | Senate Sponsors | County    | Amount Requested | Senate Initiative | House Initiative | Other Funding | Total Funding |
|-------------------------------|------------|----------------|-----------------|-----------|------------------|-------------------|------------------|---------------|---------------|
| Community Food Pantry Example | Introduced | Name           | Name            | Baltimore | \$500,000        | \$100,000         | \$75,000         | \$25,000      | \$200,000     |
